EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a method for driving a plasma display panel comprising, in combination with the remaining features of the claims, the number of erasing data pulses applied to turn off a specific discharge cell during an interval of the plurality of selective erasing sub-fields is in inverse proportion to the number of selective writing sub-fields turning on the specific discharge cell (claims 5 and 11); applying an erasing data pulse during an address period of one selective erasing sub-field to turn off the specific discharge cell, wherein the number of erasing data pulses applied to the specific discharge cell is set to be differentiated depending upon a peripheral temperature at which the panel is driven (claim 17).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Vu whose telephone number is (571) 272-1831. The examiner can normally be reached on M-F 8am-430pm.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
